This Regulation is not met as evidenced by: Based on observation, interview and record review on 3/31/09, the administrator admitted a resident with a mental illness history that threatened the safety of the other five residents (Resident #2, #3, #4, #5 and #6). Findings include: During the annual survey on 3/31/09 at approximately 10:30 AM, Resident #2 wheeled herself out of her bedroom to the kitchen to voice a complaint about Resident #1 to the administrator, Employee #1. Resident #2 was interviewed in her room and she reported she was resting in her bed when she heard her door open. She stated she pretended to be asleep but observed Resident #1 open the drawer in her bedside table and take out a pack of cigarettes. Resident #1 stated she did not confront Resident #1 and pretended to be asleep because Resident #1 "is crazy." The administrator reported she

asked Resident #1 where she got her cigarettes

At 10:45 AM, Resident #1 wheeled herself in a wheelchair from her bedroom on the east side of the house, through the kitchen on her way to the enclosed back patio to smoke a cigarette. The resident was speaking loudly to no-one in particular about the government and how they were out to get everyone, communism, etc. She was using the F-word and was told by the administrator not to use curse words. The resident wheeled herself to the patio to smoke. Later in the survey, Resident #1 wheeled herself to resident rooms on the west side of the house and viewed Resident #4 in her room. Resident #1 came back down the hall velling that Resident #4 was in serious medical trouble because of the purple color under her eyes; that the resident needed immediate medical care; about Chinese remedies and other concerns. The administrator had to re-direct the resident as her outburst was disturbing other residents. Review of the facility file for Resident #1 revealed the resident was a 61-year old female with a history of schizoaffective disorder and bipolar disorder. The resident is a Washoe County Public Guardian's office client. Prior to her admission to the facility, the resident was homeless and was arrested for trespassing. The resident was placed in the Washoe County jail and the jail initialed a "Legal 2000" due to the resident's rambling, non-sensical answers to questions and a lack of self care. The resident was transferred to Renown hospital and then to Northern Nevada Adult Mental Health Services' (NNAMHS) acute psychiatric ward.

The evaluator indicated the resident's judgment, insight and impulse control were all severely impaired; the resident was easily agitated and oppositional in general; and clearly delusional. The 12/16/08 evaluation report also indicated Resident #1 had five previous admissions to NNAMHS and two admissions to Lakes Crossing, a secured psychiatric ward for evaluation of competency to go to trial. The resident had previous psychiatric admissions in Chicago and had also attempted suicide. The resident had been arrested numerous times for assault and battery with a deadly weapon; had misdemeanor charges for indecent exposure and trespassing and was sentenced to jail for three of the charges but was found to be too incompetent to stand trial. The 12/16/08 evaluation report revealed that in 2007, Resident #1 struck a group home manager with a glass coffee carafe after she became upset with the caregiver. The caregiver sustained injuries from this assault. It was revealed the resident also lived in another Reno group home but left the home on 10/28/08. The resident was living on the streets and was taken to a women's drop-in shelter because she refused to return to the group home. The resident was then kicked out of the shelter due to her behaviors. Resident #1 has been prescribed numerous psychotropic medications over the years including Depakote, Risperdal, Lithium, Zyprexa, Haldol, Seroquel, Geodon and Abilify. The resident was currently prescribed the anti-psychotic medication Zyprexa.

Resident #1 was admitted to this group home on

The facility does not have a mental illness endorsement as part of their license from the Bureau. The administrator was questioned about her knowledge of the resident's mental illness diagnoses and her history of assaulting caregivers. The administrator stated she did not read the psychiatric evaluation and did not know about the resident's history. She reported the resident did try to leave the facility after she was caught smoking in her room and was told she would have to smoke on the patio. Resident #1's public guardian was called by the surveyor to discuss her placement in the facility. The guardian reported she was not aware the facility required a special endorsement to care for mentally ill residents. She stated the administrator saw the resident prior to admission and reported she could admit the resident. The quardian reported the resident was doing well at the facility and said she liked it there, and that she had not been told of any problems being created by the resident. The guardian reported she would begin the process of finding appropriate placement for the resident but stated she has had difficulty in the past with placing the resident in group homes. Findings include: Resident #2 was admitted to the facility on 1/7/07. The resident's diagnoses include high blood pressure, depression, esophagitis, chronic pain and seizure disorder. The resident was prescribed Morphine 30 mg, two times a day. The medication was listed on the resident's medication administration records (MARs) back to July of 2008. Resident #2's March 2009 MAR showed the resident stopped receiving the Morphine on 3/13/09. The administrator reported the facility ran out of the medication and that the resident's doctor did not write a prescription to re-fill the medication. There was no physician's order to discontinue the Morphine. The administrator was asked if she contacted the resident's physician concerning the missed Morphine doses. The administrator reported she took the resident to see her doctor on 3/12/09. The administrator stated she wrote the resident's medications on a medication review form and presented it to the doctor. It was pointed out to the administrator

The administrator reported she did not mention to the resident's physician that the resident had only one more day of the medication left and that a new prescription was needed. She reported the physician also did not notice the Morphine was missing from the list of medications. The administrator reported the resident had not asked her about the Morphine pills so the administrator thought the resident was doing fine without the medication. Resident #2 was interviewed in her room. The resident reported she has chronic pain and always hurts. The resident did not indicate she was aware that she was no longer receiving one of her pain medications.
